

DRAPER CABIN

The use of this cabin is a unique experience in itself. On no other state forest property can one rent an old log cabin and digress back in time 130 years to an age when electricity was not available. Heating was done by burning wood in a stone fireplace and food was prepared over the burning coals.

Due to the popularity and heavy use of DRAPER CABIN, it has been necessary to repair, maintain and secure the cabin and limit the number of cabin occupants to 14 so as not to overburden the cabin and surrounding area.

Minimum rental on a weekend is for two nights (Friday and Saturday). On weekends having holidays connected to them the minimum rental period is for three nights. Sunday and Monday nights cannot be reserved unless also rented for prior Friday and Saturday.
